

## Club & Sledge Hammers with Fibreglass Shaft

Two new Club Hammers have been added to Sealey's Premier Hand Tool range that are designed for daily professional use. The CHF251 has a 2.5lb drop-forged carbon steel head, and the CHF401 has a 4lb head. They are fitted with a fibreglass shaft and feature a contoured shock absorbing rubber grip.

Also added to the range are three sledge hammers which are manufactured from fine grained carbon steel with a heat treated, induction hardened and tempered with precision ground polished striking face. Also fitted with fibreglass shaft and a contoured shock-absorbing rubber grip, the new club & sledge hammers are manufactured and tested to BS 876. SLHF071 has a 7lb head, the SLHF101 has a 10lb head and the SLHF141 has a 14lb head. For further details, or to view Sealey's complete range visit [www.sealey.co.uk](http://www.sealey.co.uk) or alternatively call our Customer Service Department on 01284 757500.
