

New CP20V - 5 Tool Combo Kit

The new 20V Series has been designed to suit users from the DIY enthusiast to the professional. These body-only tools offer a one-battery-fits-all solution with a choice of 20V lithium batteries ranging from 2Ah to 4Ah, meaning costs can be kept down whilst quality remains high. Quality, stylish, lightweight tools with durable composite housing and a soft grip makes them comfortable and easy to use.

The models are available to purchase individually, but in order to achieve the biggest saving - go for Sealey's five tool combo.

The five tool deal consists of:

A powerful cordless drill/driver with hammer function, a 2-13mm keyless chuck and 3 drill functions with 18 torque settings which provide the control required to complete various tasks. The CP20VDD has a built in LED work light and a forward, reverse and trigger lock. It is supplied with a belt hook for safer storage whilst not in use.

A 1/2" Square Drive Impact Wrench which produces torque of up to 230Nm, a variable speed trigger switch for easy control, a built in LED work light and forward, reverse and trigger lock. The CP20VIW is fitted with electronic brake and supplied with a belt hook.

The CP20VAG Angle Grinder is a superbly balanced compact design. It incorporates a heavy-duty alloy bevel gear head with aluminium gear casing and a spindle lock for quick disc changes and adjustable disc guard. It is supplied with a side handle and soft grip for added comfort and control and is powered by a Lithium-ion battery. The motor power is 700W with a no load speed of 10,000rpm. The Angle Grinder model no. is CP20VAG.

Next, a powerful and cordless reciprocating saw which is suitable for cutting wood, board and soft metals. It has a built in quick blade change system and variable speed control trigger switch. The CP20VVRS is supplied with wood and metal cutting blades and a two stage operation switch for added safety.

Model number CP20VOS is a powerful cordless orbital sander. The three speed settings give control to complete various tasks. The unit is fitted with a Ø125mm hook-and-loop backing pad and is supplied with two sanding discs. It also features a self-contained dust extraction port with dust collection bag.

Two CP20VBP 20V 3Ah Li-ion batteries are included in the deal, as well as a CP20VMC mains charger which includes a useful LED which indicates the status of the battery from charging to full.

Storage is provided for the kit, in the form of Sealey's AP8250 which is a durable ABS toolbox with a robust fold flat handle. The external dimensions are (W x D x H): 445 x 310 x 250mm.
