

## **VS2076 - Diagnostic Socket Memory Safe - EOBD 12V**

Another excellent addition to Sealey's range is their new VS2076 - Diagnostic Socket Memory Safe which proves invaluable when preserving the memory of on-board electronics while the vehicle battery is disconnected. It saves valuable time spent re-programming lost codes and can be connected via the vehicle's EOBD or vehicle accessory power socket. The unit features an internal 12V 7Ah sealed battery and LEDs provide battery condition and charge indicator and is supplied with mains charger.
